

ScriptCenter®

ScriptCenter offers your patients a convenient prescription collection point that allows you to create prescription deposit and collection destinations. ScriptCenter adds to your suite of convenience offerings by allowing patients to quickly deposit and collect NHS prescriptions without waiting in a queue.

Holds up to 560 packages
Configure ScriptCenter to meet your prescription demands with a combination of up to 8 small and large platforms.

Patient registration at machine
Register without the assistance of pharmacy staff with ScriptCenter's easy to follow touch screens.

Integrated point of sale system
Interface with your point of sale system or install as a stand-alone device to accept credit and debit payment.

Prescription deposit
Enable patients to drop off their NHS prescription forms anytime into ScriptCenter's integrated deposit slot.

One touch family pickup
Group family members to one account allowing patients to deposit and collect for the entire family in one easy transaction.

ScriptCenter®

With ScriptCenter, pharmacy staff maintains the control of filling prescriptions, whilst ScriptCenter takes care of the repetitive work freeing up your pharmacy staff for offering additional pharmacy services and patient counselling. And with three bar-code checks, ScriptCenter delivers the right prescription to the right patient... every time!

Multiple medicines per package

Link multiple medicines to each package to maximise space and increase delivery speed.

Single or batch loading

Load dozens of prescriptions in just minutes anywhere into the machine... no need to pick specific slots or trays, ScriptCenter's bar-code system will track packages real-time.

Biometric identification (optional)

Quickly and securely login to ScriptCenter with the swipe of a finger for both patients and pharmacy staff access.

Secure and private

Track each patient and staff member accessing ScriptCenter with detailed reports including a photo and electronic signature. ScriptCenter also has a privacy screen protecting your patients' personal information.

Counsel and promote services

Use ScriptCenter to direct patients for additional counselling and link your current pharmacy services with ScriptCenter to increase pharmacy access and enhance existing services.
